- * Our eBay Store only contains a partial listing of our instruments, including those remaining after filling **Custom Design Orders****, as well as **Wait Listed**** & **Wish Listed***** Clients. We also use it to show case new styles and specials. The site includes Independent, Unedited Customer Feedback on Instruments received.

*** Custom Design Orders**

We frequently collaboratively design custom instruments for our Customers, which we have our sources create. If our Customers don't mind others seeing the results, we include it's photo in our listings. These instruments are marked as among the SOLD items. Such instruments carry our full guarantee. And if the results don't meet the goal (*e.g.*, wood figure pattern, color match with goal etc), we apply 100% of the purchase price towards another instrument or refund. If we think the design might be popular with others, we sometimes have two flute bodies made and give you first choice!

**** Wait Listed**

(**same as Custom Design Orders above**) Some folks keep having specific instrument styles/pitches snatched out from under them and sold. Solution: Custom Order the instrument (see above) and you'll have first shot at it before we list it.

***** Wish Listed**

Often Collectors and Musician's want a specific pitch, wood, special performance characteristics, or price grade. Solution: Get on the wish list! For instance, those wanting to hear about certain grades of Em flutes or Black Ebony flutes, will be alerted as they come in. The instruments are often listed soon afterwards. This "heads up" cue gives the chance to take first pick!!!
