

# **‘Ancient Sounds’**

## **heart music interwoven with ancient woodwinds & world instruments**

‘Ancient Sounds’ creates inspiring, heart-felt music themes ranging from ethnic world music through melodic light jazz. Japanese Shakuhachi, Chinese, Native American, South American, East Indian, Irish/Celtic and other World Flutes and Whistles, as well as Didgeridoos and other Ancient Winds are among the core elements bringing expressive, often exotic impact to their songs. The Ancient Winds are interwoven with ethnic percussion, piano, keyboards, synthesizer, guitar and amazing vocals. This creates a musical mosaic with compelling variety as needed, from danceable to meditative, ensuring a custom fit for each venue. Ancient Sounds’ music is for pure enjoyment and rejuvenation. There is focused intention behind it to inspire and support unfoldment of the innate creative talents of others.
